Session 3.0

Session Overview

Session No.	3.0
Session Title	Designing the Future: Policy, Technology and Youth-Led Governance
Broadcast Date	29th August, 2026.
Broadcast Time	11:00 AM - 12:30 PM (WAT)
Duration	Exactly 90 minutes
Description	Session 03 of the E.A.R.T.H. Webinar Series examines how strategic policy design and technology ecosystems converge to shape Nigeria's governance and digital future. Anchored in Pillar 3 (Youth Development) and Pillar 5 (Digital Transformation), the session moves beyond high-level theory to explore the structural tools required to translate youth-led advocacy into enforceable policy and scalable digital systems. Over a focused 45-minute core dialogue, the featured speakers will unpack the intersection of legal frameworks, digital rights, gender policy, and strategic foresight. They will examine how rights-by-design principles apply to digital spaces, how deep-tech upskilling and innovation ecosystems build long-term youth capacity, and how governance frameworks and youth-driven leadership models are defining Africa's path forward.
